Titan Core Credit Fund Factsheet

As of 28/02/2026

The Fund aims to achieve capital appreciation through investing in a portfolio of fixed income securities. The Fund has no benchmark, however, informally, the performance of the Fund will be compared against the "IA £ Corporate Bond Sector".

The fund will look to achieve its objective by investing predominantly in large cap, senior, traditional corporate bonds. Up to 40% of the portfolio can be allocated to subordinated debt and the team will use its expertise in this sub-asset class to deliver excess return through specific security selection. Diversification is a key feature of the Fund across country, industry and security type.

Past performance is not a guide to future performance.

Typically lower rewards: 1 2 3 4 5 6 7
Typically higher rewards

The above is the Synthetic Risk and Reward Indicator ("SRRI") for Class A GBP Acc. The SRRI shows how much a fund has risen and fallen in the past, and therefore how much a fund's return has varied - it is a measure of the fund's volatility. The SRRI is not guaranteed and may change over time. The SRRI is calculated on an annual basis and is displayed on the KIID.
