TWP Sustainable Defensive

TITAN Wealth
Wealth Planning

Portfolio Objectives

The Sustainable Defensive portfolio aims to achieve long-term capital growth by investing across a selection of funds that we believe, in aggregate, address global social and environmental challenges through Doing Good, Avoiding Harm and Leading Change.

Portfolio Summary

Launch Date	10 September 2024
Platform Availability	7IM, Aberdeen, Aegon, Aegon (Arc), AJ Bell, Aviva, M&G, Quilter, Titan, Transact
Yield***	1.5%

Direct Costs and Charges for Managed Portfolio Service (MPS)	
Titan Square Mile Fee	0.25%

Costs and Charges for Manufacturing and Managing the Fund (deducted from returns of fund)*	
Underlying Holding Charge**	0.47%

Commentary

The third quarter saw markets supported by resilient global growth, positive corporate earnings and continued investor focus on artificial intelligence and long-term structural themes. Equity markets delivered positive returns across the US, Asia and Emerging Markets, although persistent inflation, higher bond yields and geopolitical uncertainty created periods of volatility. Fixed income markets remained more mixed as expectations for central bank policy continued to shift.

	Performance to latest month end				Calendar Year				
	3 Months	1 Year	3 Years	Since Launch	2025	2024	2023	2022	2021
Portfolio	-1.1%	3.5%	20.7%	24.3%	6.9%	5.0%	6.1%	-	-
IA Mixed Investment 0-35% Shares	-0.9%	4.8%	22.3%	-	7.9%	4.4%	6.0%	-	-

Performance data prior to launch date is simulated, based on a real portfolio that Titan Square Mile has run for another client with a similar mandate. The performance start date is 29/09/2022. Simulated past performance data is a guide only and past performance data is not a reliable indicator of future performance. Returns are net of income reinvested and investment management fees in GBP. Performance does not consider platform or adviser fees. Performance numbers are shown in discrete periods. The investment performance may vary depending upon Platform and availability of share classes. Source: Titan Square Mile & LSEG Lipper (all rights reserved).
The Investment Association (IA) is the trade body that represents the UK investment management industry. It publishes data on UK funds and investment trends and oversees fund classifications, including the widely used IA sector classifications for UK funds. The IA Mixed Investment sectors are a way they group multi-asset funds so investors can compare similar funds based mainly on how much equity a fund is allowed to hold.

*The costs and charges of manufacturing the fund will impact the overall return received by investors. Other costs deducted from fund returns are transaction costs which include trading costs, broker commissions and spreads. More information is available on request.
**Underlying Holdings Charge: Weighted average of the OCF (Ongoing Charge Figure) of all holdings. Where OCF is unavailable TER (Total Expense Ratio) is used. The actual charge may vary depending upon Platform and availability of and access to share classes.
*** Historic yield figures will only be provided for funds with at least 12 months of performance history. Where quoted, the yield is the aggregate and weighted position of each underlying fund within the portfolio and is based on the yield published by the manager of each respective fund.

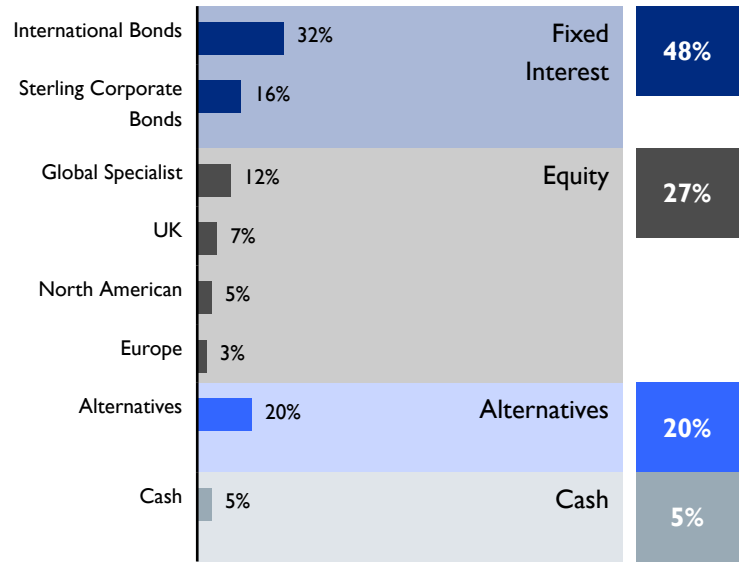
Portfolio Breakdown



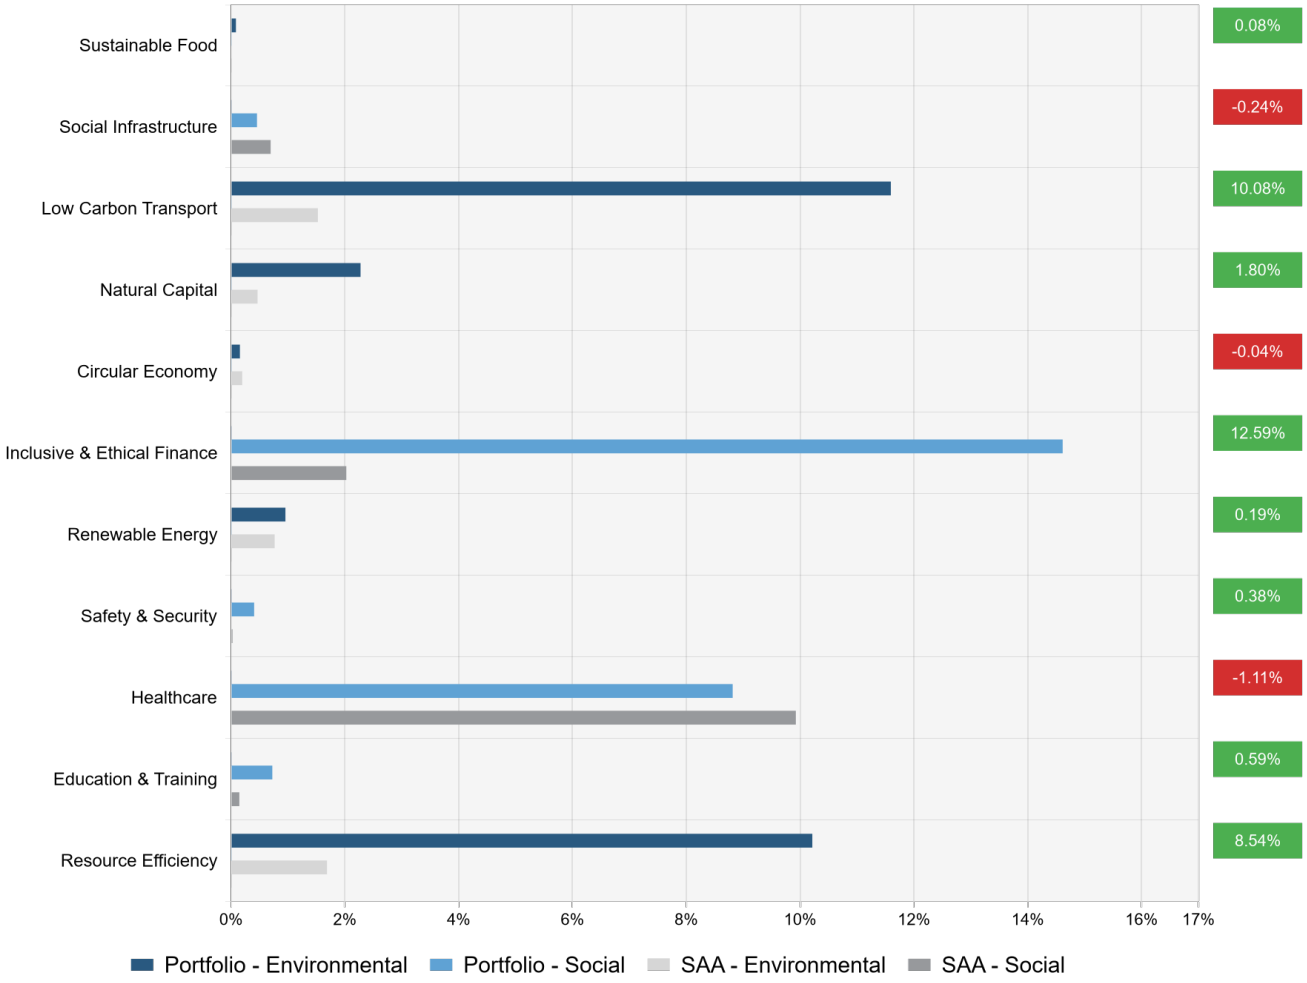
SUSTAINABILITY DATA

Commentary

The third quarter saw markets supported by resilient global growth, positive corporate earnings and continued investor focus on artificial intelligence and long-term structural themes. Equity markets delivered positive returns across the US, Asia and Emerging Markets, although persistent inflation, higher bond yields and geopolitical uncertainty created periods of volatility. Fixed income markets remained more mixed as expectations for central bank policy continued to shift.

Do Good

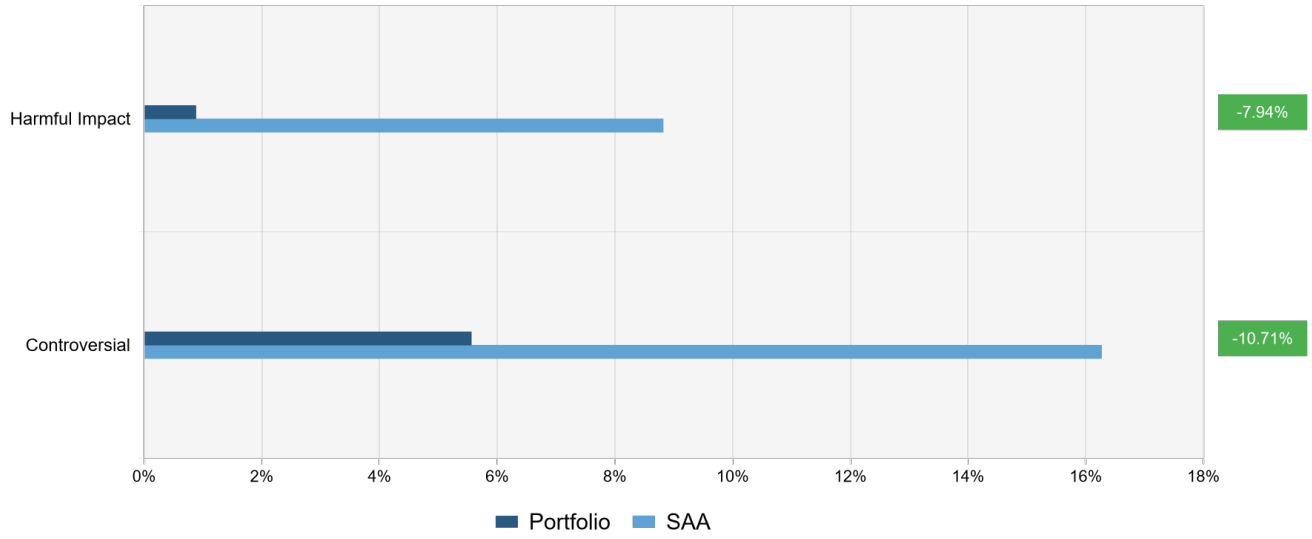
Do Good refers to the level of alignment within the portfolio to companies offering solutions to global social and environmental challenges. It is measured according to the 3D Investing methodology, which uses a large data set to individually map lines of revenue of all underlying businesses to environmental and social solutions. The chart below shows the total revenue exposure to the 3D Investing defined solutions of the portfolio versus the Strategic Asset Allocation (SAA), the latter comprising representative index tracking funds and ETFs.



Source: Titan Square Mile. The comparator used reflects the strategic asset class allocation based on the underlying investment exposure of the portfolio to equities and fixed income at the date of data. This information is for illustrative purposes only to provide an indicative comparison to a nonsustainable market equivalent.

Avoid Harm

Avoid Harm refers to the level of exposure to the revenue lines of companies that confer negative contributions to society and the environment. As with Do Good, it is measured according to 3D Investing's proprietary methodology, individually mapping the revenues of underlying companies to activities our analysts consider harmful, or controversial. The chart below shows the total revenue exposure to the 3D Investingdefined controversial activities and harmful impact of the portfolio versus the SAA, the latter comprising representative index tracking funds and ETFs



Source: Titan Square Mile. The comparator used reflects the strategic asset class allocation based on the underlying investment exposure of the portfolio to equities and fixed income at the date of data. This information is for illustrative purposes only to provide an indicative comparison to a nonsustainable market equivalent.

Lead Change

Lead Change refers to the active role that fund managers play in influencing the companies they invest in. This involves engaging with these companies to encourage improvements in areas like governance, environmental practices, and social responsibility. Our 3D Investing team analyses all rated funds based on their ability to effect positive change through measurable and structured engagements. Fund managers may work independently or collaborate with other investors and advocacy groups to drive positive change. The aim is to ensure that the companies in their portfolios are not only financially strong but also operate in a more sustainable and ethical way. Engagement is key to responsible investing because it helps address longterm risks and opportunities that might not be immediately evident. Through this ongoing dialogue, fund managers can guide companies towards better practices, fostering more sustainable growth over time.
However, meaningful change in large organisations takes time, so these engagements often span years rather than fitting into a single quarter. This is why engagement activities aren't typically reported on a quarterly basis.

Titan Wealth Planning Limited is authorised and regulated by the Financial Conduct Authority, FRN 574458. Registered address: 101 Wigmore Street, London, W1U 1QU. Registered in England and Wales, company registration number 07839452. Exposure to funds managed by Titan Investment Services will not exceed 10% per fund, except for funds containing multiple underlying managers (fund of funds or managers of managers). TISL reserves the right to exit such funds if it is deemed appropriate to do so. Titan Investment Solutions Ltd is a wholly owned subsidiary of Titan Wealth Holdings Ltd, part of the Titan Wealth Group.
