

Titan Wealth Planning MT1

Portfolio Objectives

The aim of the model portfolio is to increase in value, over a minimum of 5 years, by investing predominantly in low-cost index tracker funds across global markets with a small exposure to active instruments where deemed potentially beneficial. This will be achieved through a combination of capital growth, which is profit on investments held, and income, which is money paid out of investments such as dividends from shares and interest from bonds.

Portfolio Summary

-----------------------------	-------

Commentary

The final quarter of 2025 saw central banks pivoting toward rate cuts despite stubborn inflation, particularly from tariff pressures in the United States. Growth has softened markedly across developed markets, with unemployment rising and labour markets cooling. The Bank of England and the US Federal Reserve both cut interest rates, while the European Central Bank held rates steady and signalled a more cautious path ahead.

Equities outperformed bonds in the fourth quarter, thereby contributing the largest share of positive returns for our portfolios.

	Performance to latest month end				Calendar Year				
	3 Months	1 Year	5 Years	Since Launch	2024	2023	2022	2021	2020
Portfolio	2.3%	6.6%	9.8%	15.3%	3.5%	4.5%	-5.1%	0.4%	3.4%
IA Mixed Investment 0-35% Shares	2.2%	7.9%	9.6%	-	4.4%	6.0%	-10.9%	3.0%	3.8%

Past performance is based on simulated past performance from the launch date to the date of first investment. Simulated past performance data is a guide only and past performance is not a reliable indicator of future performance. Returns are net of income reinvested, investment management fees and Titan Asset Management fees in GBP. Performance does not consider platform or adviser fees. Performance numbers are shown in discrete periods. Source: Titan Asset Management & LSEG Lipper (all rights reserved)

The Investment Association (IA) is the trade body that represents the UK investment management industry. It publishes data on UK funds and investment trends and oversees fund classifications, including the widely used IA sector classifications for UK funds. The IA Mixed Investment sectors are a way they group multi-asset funds so investors can compare similar funds based mainly on how much equity a fund is allowed to hold.

*The costs and charges of manufacturing the fund will impact the overall return received by investors. Other costs deducted from fund returns are transaction costs which include trading costs, broker commissions and spreads. More information is available on request.

**Underlying Holdings Charge: Weighted average of the OCF (Ongoing Charge Figure) of all holdings. Where OCF is unavailable TER (Total Expense Ratio) is used. The actual charge may vary depending upon Platform and availability of and access to share classes.

*** Historic yield figures will only be provided for funds with at least 12 months of performance history. Where quoted, the yield is the aggregate and weighted position of each underlying fund within the portfolio and is based on the yield published by the manager of each respective fund.

Portfolio Breakdown

Financial advice provided by Titan Wealth Planning Limited is authorised and regulated by the Financial Conduct Authority, FRN 574458. Registered address: 101 Wigmore Street, London, W1U 1QU. Registered in England and Wales company registration number 07839452. VAT Registration number 177910284. The portfolio may invest in funds managed by Titan Wealth, although exposure to such funds will not exceed 25% per fund. The manager's charge for these managed portfolios is 0.36% excluding VAT and is calculated and deducted every month from the cash facility in your client's wrapper. This charge excludes platform fees and excludes the cost of any underlying investments selected by the manager. Out of this charge the discretionary fund manager will pay 0.1667% plus VAT to Titan Wealth Planning Ltd for the licensing of their asset allocation models and risk rating services.
